Aspekte der Qualitätssicherung bei der Herstellung von Naturdärmen – Review Teil 1

Von Joris J. Wijnker

Codewörter: Naturdärme | Konservierung | Salz | BSE

Literatur
7. EFSA (2008a): Scientific and technical clarification in the interpretation and consideration of some facets of the conclusions of its Opinion of 8 March 2007 on certain aspects related to the risk of Transmissible Spongiform Encephalopathies (TSEs) in ovine and caprine animals. The EFSA Journal 626, 1–11.
8. EFSA (2008b): Risk for human and animal health related to the revision of the BSE monitoring regime in some member states. The EFSA Journal 762, 1–47.

14. European Commission Scientific Steering Committee (2000): 1) Opinion on the scientific basis for import bans proposed by 3 member states with regard to BSE risks in France and the Republic of Ireland; 2) Opinion on the scientific basis for several measures proposed by France with regard to BSE risks; 3) Opinion on the scientific basis for banning animal protein from the feed for all farmed animals, including pig, poultry, fish and pet animals. Adopted by the Scientific Steering Committee at its meeting on 27–28 November 2000. Scientific Steering Committee, Directorate-General for Health and Consumer Protection (SANCO), Brussels.
